# PINK ANGEL

## ANTI-AGE AND MODELLING PINK MOUSSE FOR THE BODY

**What:** soft pink mousse with light-effect powder.

**Why:** to prevent sagging of the skin, provide more brightness and make skin tone more homogeneous.

**How:** multi-functional body cream. Shaping, firming and antiage treatment. It smoothes the skin and makes it divinely velvety, while redefining silhouette contours. This body treatment is effective on two levels:

- unblocks and moves the lipids until their reduction (Liporeductyl®)
  - thanks to the immediate tensor effect (Proteasyl®) it gives consistence, tightness and elasticity to the skin.
- Enriched with golden-effect powder, Pink Angel provides skin with uniformity and brightness.

**Where:** all body skin and especially areas featured by loss of tone and elasticity.

**Use:** apply the mousse on the body, especially on sagged areas, gently massaging till complete absorption.

## ACTIVE INGREDIENTS:

**Liporeductyl®:** special liposomes that ensures effective penetration and transport of the actives ingredients to skin deepest layers. Liporeductyl® contains several ingredients helping to reduce local fat concentrations:

- **Caffeine:** it stimulates drainage and removal of stagnant fluids. It moves fat acids from adipose tissues.
- **Ruscus aculeatus root extract:** strongest tonic ingredient. Its active principles improve circulation and capillar walls. Firming and reducing effect on cellulite.
- **Iodina:** lipolytic effect. Accelerator of metabolic processes while at the same time it helps to excrete toxins.
- **Hedera helix extract:** high firming cosmetic effect in every area of the body affected by sagging. Rich in caffeine, that stabilize fat metabolism by activating lipolysis.
- **L-Carnitine:** effective on cellular metabolism turning fats into energy. It helps elimination of toxins and it is a very good anti-oxidant.
- **Escina (aesculus hippocastanum extract):** it counteracts with excess of water retention. It protect capillary vessels and then fluids flow much better avoiding fat build-ups that cause 'orange peel' effect.
- **Glicil-Istidil-Lisina:** strong anti-oxidant effect, able to capture harmful substances derived from fats oxidation.

**Proteasyl®:** vegetable complex able to fight elastic tissues degradation and to maintain proper firmness of treated areas. Tensor effect on tissues for a double action, anti-sagging and firming.

**Shea karité butter:** emollient, softening, also with anti-aging and toning-up proprieties.

**Vitamin E:** fight against free radicals and to lighten the skin.

**Golden mica powder:** bright golden powder to provide radiant and tanning effect.

## RESULT:

With a constant use, the skin is visibly more compact, moisturized and resilient.

Thanks to the reduction of water retention and the accumulation of the fats in the adipose tissues and thanks to the immediate tensor effect PINK ANGEL gives consistence, tightness, moisturizing and elasticity to the skin.

PINK ANGEL works on specific actions:

- Traditional lipolytic activity provided by classic **anticellulite extracts with proven efficacy**
- **Activation of microcirculation** due to the powerful venotonic profile of several actives
- Revolutionary cellulite prevention due to the specific **inhibition of adipocyte maturation**
- The GHK tripeptide acts as scavenger for by-products of lipid peroxidation
- **Strengthening skin elasticity.** Anti-aging effect for slackened, atonic skin.
- Long-lasting hydro-regulator.
- Tensor effect on tissues for a double action, anti-sagging and firming.

A constant use of the product improves the silhouette and helps the body to rediscover a more tonic and harmonious shape. Firms, tones and helps restore youthful-looking contours to the body skin, effected by aging\*.

Thighs are refined, buttock is thinner and the body's silhouette becomes beautifully sculpted.

Scientifically proven, thanks to specific ingredients effectively breaks fat down and burns it, to reduce the accumulation of excess fat\*. Smooth it on, and let the slimming begin.

PINK ANGEL is suitable for all the part of the body. DERMATOLOGIST-TESTED.

\* Consumer perception test on 15 women.

## CONCLUSIONS

EVALUATIONS REGARDING THE EFFICACY AND SATISFACTION OF PURE BODY PRODUCT:

### PINK ANGEL, THAT'SO PURE BODY

**QUADRA MEDICAL S.R.L.**

**STRADA CARTIGLIANA 143B - 36061 BASSANO DL GRAPPA (VI)**

ALL VOLONTIERS CONCLUDED THE TEST IN ACCORDING WITH THE PROTOCOL:APPLICATION OF PINK ANGEL FOR A PERIOD OF 4 WEEKS, TWICE A DAY.

THE CLINICA DATA AND THE QUESTIONARIE SHOW THE EFFICANCY OF THE TREATMENT WITH PINK ANGEL, IN THE IMPROVEMENT IN SKIN MOISTURIZATION AND ELASTICITY.

THE SKIN APPEARS MORE COMPACT AND THE PRODUCT IMPROVES THE SILHOUETTE AND HELPS THE BODY TO REDISCOVER A MORE TONIC AND HARMONIOUS SHAPE.

THE BIO METROLOGICAL MESUREMENT HIGHLIGHT THAT THERE WAS A SIGNIFICANT DECREASE IN THE CIRCUMFERENCE OF THE BUTTOCK AND RIGHT THIGH.

THE AVERAGE VALUE IS MINUS 1,2 CM OF REDUCTION IN THE CIRCUMFERENCE OF THE BUTTOCK AFTER 4 WEEKS OF TREATMENT AND MINUS 0,9 CM OF REDUCTION IN THE CIRCUMFERENCE OF THE RIGHT THIGH AFTER 4 WEEKS OF TREATMENT.(1)

THE TESTER INDICATED ON THE QUESTIONARIE AN OVERALL BENEFIT AND SATISFACTION WITH 100% POSITIVE FEEDBACK.

IN DETAIL THEY EXPRESSED THAT THE PRODUCT ABSORBS EASILY 86% OF THE VOLUNTEERS, 86% UNDERLINE THAT THE SKIN WAS MORE FIRMER AND 93% MORE COMPACT, AND FOR THE

100% OF THE VOLUNTEERS HELPS RESTORE YOUTHFUL-LOOKING CONTOURS OF THE BODY SKIN  
EFFECTED BY AGING. NOBODY INDICATED UNDESIRABLE EFFECTS OR SOME COMMENTS. (2)

(1) MEASUREMENTS TAKEN IN CENTIMETERS ON 100% OF SUBJECTS. (BIO METROLOGICAL TEST ON 15 SUBJECTS).

(2) SATISFACTION WITH THE EFFECT PERCEIVED AFTER 4 WEEKS OF USE. (USAGE TEST CARRIED OUT ON 15 SUBJECTS).
